

## OPERATORS CAN'T RAISE WAGE WITHOUT GOVERNMENT PERMIT

Several Express Willing-  
ness to Do So at the  
Conference

By Associated Press Leased Wire  
Chicago, July 30.—Members of the bituminous coal operators scale committee of the central competitive field met here today to act upon the invitation of President John L. Lewis of the United Mine Workers of America to confer with the miners' scale committee.

Chicago members of the committee who went to Washington recently to present information on the strike of day laborers in Illinois mines declared that they could not undertake to change the wage agreement with the miners signed last April unless the government reopened the coal commission hearings which drew up the wage scale. Some members of the committee have declared their willingness to give the award granted the day laborers by the coal committee's award to make it equal the increase granted other miners but not until governmental permission was received.

It was reported today that some of the railroads here were exercising their priority right and holding in the yards coal which could be used in locomotives. Several hundred cars of coal are said to be in railroad yards here awaiting acceptance by consignees.

### HOWAT IS DEFIANT.

Pittsburgh, Pa., July 30.—Alexander Howat, district president of the United Mine Workers, today wired John L. Lewis, international president at Indianapolis that Kansas miners would "use all the power in their command to compel the operators to turn every dollar that was stolen from their wages." Several thousand Kansas miners are idle in protest against fines imposed by operators, because the miners refused to work Saturdays. Howat's declaration was regarded by operators as tantamount to defiance of the international president.

### STRIKERS PENALIZED.

By Associated Press Leased Wire  
Springfield, Ill., July 30.—Eighty-thousand striking miners in Illinois drew two weeks' pay today. Some of them were penalized as much as \$14 apiece because of the strike, but a majority of them were told the penalty will not be imposed until the next pay day.

Effect of this fine, which by the joint agreement is divided between the individual operators and the operators' association is problematical. Operators here said it made some miners angry but led some others whose finances are "ruffling" to show dissatisfaction with a long drawn out strike. The fine is \$3 for the first day of strike and \$1 for each additional day.

### Expect Men to Return.

The 21 Peabody mines did not withhold the Peabody strike near representatives said but the Springfield district mining company's mines did. Operators, seemed equally divided. Manager Hatch of the Union Fuel Co., which operates six mines, withheld \$3.00 from each miner. From the attitude of the miners he declared his belief that the miners will resume work Monday pending a settlement.

Coal was never so low in central Illinois as now, the operators said. Industries and state institutions generally have never been so near the edge of their supply. Twenty-seven state institutions without contract for coal and in dire need of it, have appealed through Governor Lowden for help.

Governor Lowden has repeated his request to President Frank Farrington and has in one instance confiscated coal. It was reported at the state house that car load of coal had been taken from a railroad for use at the Alton state hospital.

### "Dig For State" Appeal.

Answering Governor Lowden's request that the Peabody mine North east of Springfield be put to work, President Farrington passed an appeal to the local union. "Dig coal just for state institutions was the governor's request. The miners pit committee, starting to comply, appeared at the mine.

They demanded that they be permitted to work at the increased pay for shift men, and fee of the penalty. Manager Devine of the mine responded that they would go back at the old wage and under penalty or not at all.

## WIZARD PONZI HAS THEM ALL WONDERING HOW

Boston Financier Able  
to Pay Off During  
Big Run

By Associated Press Leased Wire  
Boston, July 30.—Charles J. Ponzi, who claims to have amassed millions within a few months and who has paid to the public large profits on their investments in his deals in international exchange appeared today most to have satisfied questions among his investors as to his solvency.

Only a short time formed before the payment window of the Ponzi office this morning, and the virtual end of the five day run was in sight.

The amount paid out by Ponzi since the run began Monday was estimated by his manager, Miss Lucy Meli, at \$1,500,000. The run frightened investors to cover Miss Meli said meant more money in the already bulging pockets of Ponzi.

"Their money has been working for us all this time and Mr. Ponzi now can keep the 50 per cent profit which would have gone to these people."

Examination of the books, however, according to Miss Meli will not solve the mystery of how Ponzi has made his money. With his ready satisfaction of all demands for payment, question has turned from his solvency to "how does he do it?"

To the statements of Postmaster Patten, of New York that there are not enough international coupons in the world to build up the fortune which Ponzi claims is his Miss Meli declared that her chief's manner of "cash-in" on his operations was a business secret which he intended keeping and which examinations of his books would not show.

To permit making hydraulic connections with the new "bench" being installed at the Dixon gas plant yesterday afternoon the manufacture of gas had to be abandoned for several hours, and as a result the fuel was exceedingly "thin" today. In fact the quality was so poor that it was almost impossible to keep the metal in the Telegraph's linotype machines melted—consequently only a very small part of today's news material could be gotten into type. It had been the intention to print ten pages today in order that a fair proportion of the news could be published but the condition of the gas made it absolutely impossible to prepare ten pages. In fact the office force considers itself fortunate to have gotten out eight pages under conditions that existed today.

SHOT IN RACE RIOT

Youngstown, O., July 30.—In a clash between eight colored men and Sheriff Ben Morris, Deputy W. A. Fisher, and constable George Edis, just beyond the city limits last night Deputy Fisher was shot through the stomach and an unidentified colored man was killed.

Deputy Fisher was in a serious condition. The fight started when the officers arrived on the scene where the colored men had been "acting suspiciously," according to a report which had been telephoned to Sheriff Morris.

## BUYING A HOME

Liberty Loan campaigns taught  
saving to millions of Americans who  
had never saved before. The war over  
and the bond issues ended, a very  
large part of them ceased to save  
and proceeded to blow in the money  
being earned in larger quantities than  
ever before.

The nation today vitally needs a  
substitute for the incentive to save,  
which the Liberty Loan campaigns  
furnished. This substitute is at hand  
—and there are double reasons why it  
should be seized upon.

It is the purchasing of homes.

There are two reasons why this is a  
particularly opportune time for non-  
savers or small savers to buy or build  
homes—first, because that is one of  
the best ways to save some of the "50  
cent dollars" now being so lavishly  
spent; second, because it is the only  
sure way of escaping from the clutches  
of profiteering landlords.

For the average American family  
there is only one way to buy a house  
—that of a cash payment and the  
balance on monthly notes. This re-  
quires the payment of interest on the  
notes and perhaps on the cash pay-  
ment, too, if that was borrowed.  
This interest, however, is simply rent  
—rent paid for the use of borrowed  
money. But it is far smaller than the  
rent paid for houses these days,  
which goes into the landlord's pocket  
and is gone forever.

Above the interest, or rent, on bor-  
rowed money, every dollar paid to-  
ward reducing the principal of the  
dollar saved — a dollar which would  
probably never be saved otherwise.  
Every payment increases the buyer's  
equity in the house—and "equity" is  
equal to his "savings." This equity  
in future years—instead of a mere  
what he has to show for his money  
collection of rent receipts.

The purchase of a home offers the  
same compelling incentive of definite  
payments to meet which the bond  
campaigns offered. And think of es-  
caping the landlord's clutches.

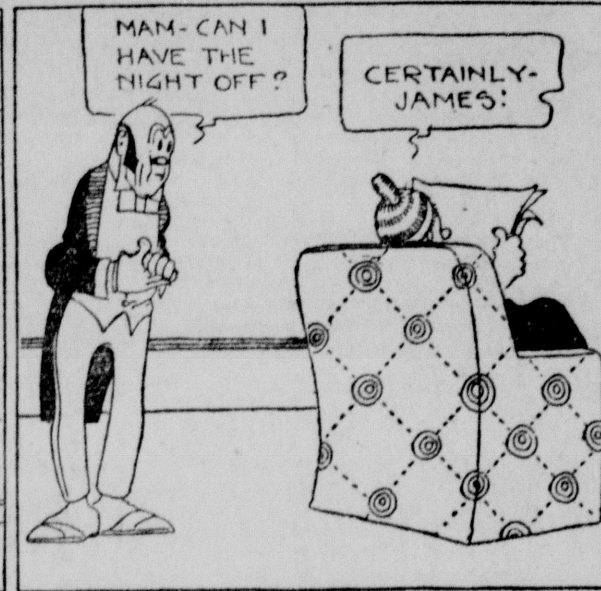

## ENGLAND WILL PAY

A "drive" now on in England, to  
sell a large issue of government "sav-  
ing certificates," is of special inter-  
est to Americans. Its specific pur-  
pose is to start paying the American  
debt. The newspapers are printing  
government advertisements urging  
the people to buy as many of these  
certificates as possible in the next  
three months, assuring them that  
"every penny invested in them will  
be used to lessen the American in-  
debtedness."

National pride is appealed to, but  
the practical benefit of such invest-  
ment is emphasized still more. It is  
pointed out that inasmuch as money  
is circulated more freely and in larger  
volume than usual, it is easier to pay  
off any given amount of the debt now  
than it will be hereafter, and also  
that when the British government  
owes the money to its own people in-  
stead of to foreigners, the interest  
will stay in England and help Brit-  
ish business.

The very fact that such a campaign  
is undertaken is a pretty convincing  
answer to cynical Americans who  
have been insisting that none of the  
Allies had any intention of paying  
the money they owe us for war sup-  
plies. The effort will be followed sym-  
pathetically on this side of the Atlan-  
tic, not merely because Americans  
will be glad to get their money back,  
but because of the better interna-  
tional relations and improved economic  
situation that will come with the pay-  
ment of such debts.

## ADVENTURES OF THE TWINS

by Olive Roberts Barton

**THE SEWING SOCIETY'S PICNIC.**  
If Nancy and Nick, up in the Maple-Tree Flats, had only known where Tingaling was, and what a predicament he was in, they could have dropped him their Magical Green Shoes and he could have wished himself up safely in Oliver Oriole's apartment, from which he had fallen.

SUDDENLY MISS MUSKRAT EXCLAIMED, "OH, LOOK AT THE BEAU-  
TIFUL BLOSSOM OVER BY THEA

awful plight, as you know, down there  
is the blueberry patch in his nightgown  
with the Woodland Sewing Society  
picnic folks all about him. He hid  
the best he could a blueberry plant,  
and shivered and shook, not because  
he was cold, but because he didn't  
wish to be seen looking so ridiculous.  
Oliver's nightgown was much too large  
for him, the sleeves coming way down  
over his hands, and Oliver's night-  
cap was not fit, either!

He waited and waited and waited,  
wishing it would rain or something  
so the picnic would break up and he  
could get away. He got tired and  
tired, too, and became careless about  
being seen. Then suddenly Miss

## Such is Life

One of the things everybody should  
be fond of, is the art of making a  
friend (or even a foe—if he has a  
sore jaw) laugh.

Noah, or Nero or some such, once  
said that nothing is new. That's why  
somebody always says (after you've  
told a crowd your latest joke), "Yes,  
that is funny—I heard it last week."

But, nevertheless, why give up try-  
ing?

If you've got a pet purr, try any  
one of these admitted jokes on him  
and if he laughs, they are funny.

Joke No. 1.—You say: "Have you  
heard about the girl who swallowed a  
hunk of soap?"  
A kind friend is supposed to an-  
swer, "No, what about her?"  
Then you sing, "She's forever  
blowing bubbles."  
(That's a funny one.)

Joke No. 2.—First you cough heart-  
ily. Then a friend will naturally say,  
"I see you have a cold." You answer,  
"Yes, a terrible one." Then friend  
will ask: "What do you do for  
your cold?" And you answer,  
"Cough!"  
(Not quite as good as the first one,  
but yet funny.)

Joke No. 3.—You breeze up to a  
friend with a mess of perfume on  
your lapel. Friend will say: "Gosh,  
do you use perfume?" You say:  
"Sure!" Then the other will ask:  
"What kind?" And you answer, "Ap-  
ple sauce!"  
(That's not so much of a joke as it  
is a funny remark, see?)

Joke No. 4.—(First join the traffic  
squad—then try this): Stand by your  
semaphore, just waiting for somebody  
to breeze up and ask, "Where can I  
get a car?" Then you wittily say,  
"Right in the back of the neck, if  
you don't get off the track."

P. S.—After telling your purr these  
jokes, ask Central the number of the  
health department. Then, next week,  
when you get a reply, tell your health  
officer to send up the "dead" wagon—  
your dog has died from laughing.

Or, if it wasn't that serious, send  
for a doctor and explain that the  
houn' has split his sides.

Job's patience wouldn't have en-  
dured if one of his friends had sprung  
the doctrine of Communism.

And to think that a few years ago  
there was nothing on hand more  
troublesome than a war.

What has become of the old-fash-  
ioned miser who worshipped a dollar?

## HYSTERIA.

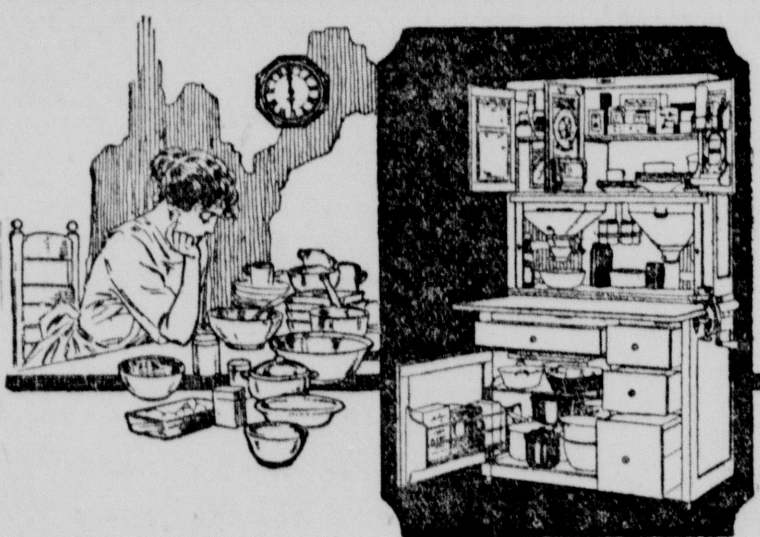

Hysteria is a functional affection of  
the mind and nervous system, usual-  
ly affecting women. It is character-  
ized by temporary loss of willpower  
and with considerable emotional dis-  
play; the affected persons laugh and  
sob immoderately without regard to  
surroundings.

The importance of giving this con-  
dition special consideration lies in the  
fact that it sometimes assumes a form  
which may be mistaken for fainting,  
shock or epilepsy, according to the  
manifestations of the patient. A case  
of hysteria may be distinguished from  
fainting as follows: In fainting the  
face and extremities are cold and the  
pulse is very weak and apparently  
lost, whereas in hysteria the face and  
extremities are warm and the pulse  
is normal. An effort to open the eye-  
lids in hysteria meets with opposition,  
but with none in fainting. In hysteria,  
which simulates epilepsy, the tongue  
is not injured, and if the patient falls  
to the ground, a suitable place is se-  
lected for this purpose to avoid in-  
jury. There is no frothing at the  
mouth unless soap or other agents are  
used for this purpose.

TREATMENT.—The most effective  
treatment for hysteria is to let the  
person alone; to sympathize usually  
prolongs the attack and does no good.  
Firmness on the part of the attend-  
ant, with an intimation that the con-  
dition is fully understood, is usually  
all that is required. It is common  
practice to douche a hysterical pa-  
tient with cold water; there is very  
particularly as the person is apt to

## ANSWERED.

Q.—Can you tell me something  
about sarcoma? Is it a benign  
growth? Is it likely to recur after  
removal?

A.—A sarcoma is not a benign  
growth, but belongs to the class of  
malignant growths usually embraced  
in the term "cancer," used by the  
laity. It is impossible to give definite  
information concerning a recurrence  
after removal of a sarcoma, but this  
is an event the possibility of which  
must be considered for some time af-  
ter apparently successful removal or  
X-ray treatment. It is suggested that  
you discuss the matter with your  
physician, who will be in a better  
position to advise you than we are.  
If you will send me your name and  
address I will send you a helpful  
pamphlet, entitled, "Cancer, Facts  
Which Every Adult Should Know."

## Confessions of a Bride

(Copyright 1920, by The Newspaper Enterprise Association)

ANN WAS EFFICIENT IN THE  
ART OF HAVING THINGS HER  
OWN WAY.

Ann was her name. I knew from  
the minute I first saw her that Jim,  
Jr., had made a mistake. So did his  
mother.

Ann had snatched our handsome  
Jim. Mother knew it and I knew it.  
But Mother welcomed her son's bride  
and folded her in her arms in the  
nicest way, and when the girl was re-  
leased the first thing she did was to  
adjust her hat, pat her hair, and  
straighten her collar!

That didn't discourage me. I fol-  
lowed Mother's example and embrac-  
ed my new sister-in-law cordially.  
Then Mother hugged Jimmyboy tight,  
but her embrace reminded me a good  
deal of the tragic hug she always  
gives her aviator-son when he re-  
turns to camp—a sort of farewell hug,  
as if she never expects to see him  
again. Handling Jim over to that girl  
was the same kind of tragedy for  
Mother.

Ann proved to be decidedly lovely—  
to look at. Her features in the photo  
didn't do her justice. Her chief beau-  
ty was her wonderful color. And she  
realized its value. I could see that  
she flaunted it before my husband, but  
she didn't worry much about wheth-  
er Mother and I were impressed by  
her baby curls and her round violet  
eyes. She wore the latest "juvenile"

frocks. Her modesty was the thing  
Jim fell for, I guess.

How was he to know it was all as-  
sumed? That it is the very latest of  
stage tricks devised to beguile mod-  
ern man?

Of course I kissed Jimmyboy in my  
accustomed sisterly fashion.  
Jim's new wife looked utterly as-  
tonished! That kind of a kiss between  
a man and a woman was beyond her  
comprehension. I grasped her idea of  
it, then I fairly flew at Jim and gave  
him another hug. I simply couldn't  
help it. The little fool! She expected  
me to stand for her primitive ideas of  
conduct! I would have to remodel  
my attitude toward my precious old  
chum to suit her provincial stand-  
ards!

"Not a bit of it," thought I. "That  
girl will have to learn!"

Jim is dense in a way and he didn't  
catch on to his wife's state of mind.  
"He will in time! In a short time!"  
said myself to myself.

Luckily we had to leave the bride  
and groom as soon as the greetings  
were done. We had to rush to meet  
Daddy and Chrys at the station. That  
gave us a chance to explain about  
Jim's marriage, and to quiet Daddy  
before he got home.

Daddy decided to be perfectly lovely  
to Ann. A pretty girl always passes  
with him.

Chrys gave Ann the once-over and

decided that she didn't count. That  
was the greatest mistake Chrys ever  
made in psychology.

Ann was the kind of a girl who al-  
ways intends to count. She was high-  
ly efficient in the art of having her  
own way. Any woman could see that.  
She went after what she wanted by  
circuitous routes and she believed that  
no body caught on to her selfishness.  
She was stupid, that way.

"She's just one grade up from the  
slums!" stormed Chrys as we left  
Ann's room the third morning after  
her arrival. Ann had a headache—  
breakfast in bed and all that, and  
Chrys and I had gone in to be as nice  
as possible. And we found that her  
room was a sight. It was littered with  
everything she owned. I hated to  
have any of the maids see it.

When we went to say good-morn-  
ing to Mother, Chrys began:  
"That girl has no background. You  
can tell from the way she uses her  
soup spoon!"

"As if that were important, Chrys!"  
said Mother. "The poor child will  
pick up a veneer of manners very  
quickly. But if she isn't orderly,  
she'll get into trouble with Jim be-  
fore long. He loves order and neat-  
ness and he's a soldier—and he will  
have it."

"If he wants it in his own home,  
he'll have to keep a host of servants  
to supply it," sniffed Chrys. "That  
girl is too lazy to keep the snails out  
of her curls. We never had anything  
like her in the family before. Her  
first disillusionment about us—about  
all of us Lorimers—is going to be the  
discovery that we don't consider it  
elegant to be lazy."

## SAYS FRIENDS WERE AMAZED AT RECOVERY

### Had Been in Bed So Long She Lost Fifty Pounds in Weight—Health Restored by Tanlac.

It is doubtful if there has been a statement in all the thousands that have been made about Tanlac that is more interesting or more clearly and forcibly defines the remarkable powers of the medicine than the following from Mrs. Laura Rarick of 403 Meidroth St., Peoria, Ill.

"I had been down in bed so long before I began taking Tanlac," said Mrs. Rarick, "that after I recovered people who knew the frightful condition I had been in were amazed. I had suffered for eleven long years and had taken medicines and tried specialists in various cities, but, in spite of it all I had gotten so bad off that there was no hope for my recovery. My stomach was so badly upset that even sometimes caused me to have awful cramps that lasted for hours. Even liquid diets caused this same misery and I would have such a stuffed-up, heavy feeling that my breath would come in short, quick

gasps and I would think each breath was going to be my last. Sometimes I had almost deathly sick spells, just like I was going to faint, which exhausted me so completely that I would be in bed for several days unable to walk a step. Almost every day I had a headache that was so severe I could hardly bear it and I often had dreadful attacks of dizziness. My kidneys were badly disordered and I had a terrible pain in my back that felt like a knife sticking in me. My nights were spent in misery, my whole system seemed to be poisoned and my complexion turned yellow as gold. I lost so much weight that it alarmed me. I don't believe any woman ever went through as much suffering and had as little hope as I did and then lived through it all to be a well and happy woman.

"I believe as firmly as I believe anything that Tanlac has saved my life and my friends all say my recovery is simply wonderful and that I am looking as healthy and strong as I ever did. Can eat anything I want and digest it without a particle of trouble. I don't know what a headache is and I am entirely free from dizziness and from those weak, fainty spells I used to have. My kidneys are in splendid condition, the

pains have gone from my back and I sleep soundly every night. My strength and energy have all returned and my health has not only been completely restored but I have regained all my lost weight, fifty pounds."

Tanlac is sold in Dixon by the Public Drug & Book Co., and by the leading druggist in every town.

This preparation for the removal of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails.  
Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful immediate double strength Othine; it is this that is sold on the money-back guarantee. Be sure to ask the druggist for the prevention, some of the lighter freckles vanishing entirely.

## Beauty is more than skin deep

There is a beauty secret that every woman should know for beauty is more than skin deep.

Nature demands food—it is the price of existence. We feed our bodies regularly to produce good health and yet we pay little or no attention to our under-nourished skin. Starving tissues develop all kinds of age evils no matter how youthful you are.

If you would defy age, laugh at crow's feet, a flabby double chin or a sallow complexion—properly nourish your skin.

For hundreds of years women the world over have known the great value of Cocoa Butter as a skin food. Coco-Bloom is cocoa butter cream, rich in pure Cocoa Butter and combined with

this priceless skin food are other ingredients beneficial to the skin.

Coco-Bloom makes the skin clear, smooth, flexible and firm. Coco-Bloom gives that natural glow—that smooth satiny complexion that defies age. Make it a habit as regular as your daily meals to each night massage your face with Coco-Bloom. Rub it especially under your eyes and your temples where the tell-tale wrinkles come first. Note the soothing effect it produces and, after a few applications, you will be repaid for the brief amount of time you have given daily by your rejuvenated appearance and charming complexion.

Remember, Coco-Bloom is cocoa butter cream, and it supplies exactly what is needed to make your skin healthy.

Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. ## IF YOUR AUTO CATCHES FIRE

there'll be a lot of money go up in smoke—unless one of our policies protects you. An un-insured house has a good chance to exist—though it's a suicidal proposition even then. In how much greater danger is your auto—to neglect to insure it is courting disaster with a vengeance. Don't be reckless and indifferent about this.

A Cut—Skin Abrasion—Then You Need Pure, Safe Soap

A tiny cut in itself doesn't amount to anything. Trouble, if there is trouble, arises from infection caused by some foreign substance lodging in the wound. Remmo Sterilized Soap reduces such a possibility. Remmo is made exclusively of the best soap ingredients—and each ingredient is sterilized at 198 degrees Fahrenheit—rendered absolutely pure.

Remmo possesses a wonderful power of penetration—the pure cleansing, sterilized lather works down into cuts, wounds and the tiny pores of the skin dissolving and entirely removing all dirt and accumulations injurious to the skin and often endangering health itself.

Remmo Sterilized Toilet Soap is not an emergency soap—not a medicinal soap—but an everyday all-purpose toilet soap absolutely pure and best suited to the needs of cleanliness, protection against infection and promotion of skin beauty.

You must use a toilet soap. Why not use the most beneficial? It costs no more.

**WHO USE MOLASSES DEMAND THE BEST SYRUP OBTAINABLE**

The difference between treacle and molasses lies in the fact that treacle comes from sugar in the process of making while molasses is obtained in the process of refining. You can't get good out of bad—but you can get the best out of the best.

**Goodyear Mileage—and Tires for Small Cars**

A well built tire yields much more mileage for each dollar of cost than a tire purposely made to be offered at a sensationally low price; buy the tire, not the price.

Built to deliver exceptional mileage at exceedingly low cost, Goodyear Tires, of the 30 x 3-, 30 x 3 1/2- and 31 x 4-inch sizes, save inconvenience, disappointment and money.

Their value results from the application of Goodyear experience, expertness and care to their manufacture in the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—for the real worth and endurance that Goodyear builds into them.

30 x 3 1/2 Goodyear Double-Cure Fabric All-Weather Tread \$23.50

30 x 3 1/2 Goodyear Single-Cure Fabric Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3 1/2 size in waterproof bag \$4.50
